## EDUCATION

| Program                           | Institution                             | %/CGPA   | Year      |
|-----------------------------------|-----------------------------------------|----------|-----------|
| B.Tech in Electronics Engineering | Walchand College of Engineering, Sangli | 7.8 CGPA | 2025–2028 |
| Diploma in Computer Engineering   | Government Polytechnic, Miraj           | 94.34%   | 2022–2025 |
| Secondary School (SSC)            | New English School, Kasabe Digraj       | 96.60%   | 2022      |

## EXPERIENCE & TRAINING

**Web Developer | TEDx Club, Walchand College of Engineering** August 2025 - April 2026

- Developing and maintaining the club website using React.js, serving event announcements to 500+ students.
- Collaborating in a 5-member team to ship UI improvements and content updates.

**Android Development Industrial Training | 5TechG** May 2024 - Jul 2024

- Completed a 1-month industrial training program on Android development, delivering independent practice projects.
- Built 10+ independent mini Android practice apps covering architecture components, UI design, and end-to-end deployment workflows.

## PROJECTS

### Attendance & Salary Management System

*Tech Stack: React.js, Spring Boot, MySQL, REST API*

- Built a full-stack attendance, payroll, and stock management system for a textile company supporting 25+ employees. Deployed QR code-based attendance tracking, automated salary calculation based on attendance records, and barcode-based inventory management to simplify employee and stock management.
- Built a real-time QR-based stock tracking module for inventory items, reducing manual stock-count effort and improving data accuracy across the workflow.
- developed a unified role-based dashboard (Employee, Manager, Admin) consolidating attendance, salary, and stock data, powered by 8+ RESTful Spring Boot APIs on a normalized MySQL schema.

### Automated Plant Watering System

*Tech Stack: ESP32, Sensors, Embedded C*

- Engineered an automated plant watering system using ESP32, integrating an LDR sensor, push-button controls, and a water pump for scheduled irrigation.
- Configured condition-based automation by activating the water pump only when the scheduled watering time and predefined sunlight intensity threshold were both satisfied.
- Programmed the complete control logic in Embedded C, integrating sensor inputs and actuator control for reliable real-time operation.

### MiniMart Android Application

*Tech Stack: Java, Android, MySQL*

- created a 15+ screen Android e-commerce app covering product listing, cart, wishlist, and end-to-end order/billing flow.
- Integrated a short-form promotional video (reels) section for product marketing alongside core browsing features.
- Integrated full CRUD operations with a MySQL backend for persistent, reliable storage of product and order records.
- Designed an intuitive multi-screen UI following Android Material Design guidelines, improving user task-completion flow.

## TECHNICAL SKILLS

**Languages:** C++, Java, Python, JavaScript

**Databases:** MySQL, MongoDB, Firebase

**Core CS:** DSA, OOP, Operating Systems (Windows, Ubuntu)

**Electronics Tools:** Keil  $\mu$ Vision, Proteus, Arduino IDE

**Web Technologies:** HTML5, CSS3, React.js

**Backend:** Spring Boot, Node.js, REST APIs

**Developer Tools:** Git, GitHub, Postman

## CERTIFICATIONS & ACHIEVEMENTS

- Google Gemini Student Ambassador**, Google Programs, 2026 – Created educational content and conducted a Google Meet workshop, engaging students through interactive challenges while demonstrating Google Gemini tools such as Lyria and Nano Banana.
- GirlScript Summer of Code (GSSoC) 2026** – Selected Participant, Open Source and AI/Agents Track (onboarding).
- AWS Solutions Architecture Job Simulation** – Forage, Oct 2025; completed hands-on cloud tasks using EC2, S3, and VPC for scalable deployments.
- Introduction to Artificial Intelligence** – Infosys Springboard.

## EXTRACURRICULAR ACTIVITIES

- Class Representative** – Government Polytechnic, Miraj – managed academic coordination and event scheduling for a class of 60 students.
- Event Organizer** – Spearheaded Engineering Day, coordinating 5+ competitions (Coding, Poster Presentation, Logo Design) with 50+ participants.
- Project Team Lead** – Led a 4-member final-year diploma project team, managing task allocation and delivering all milestones on schedule.
